

FOR IMMEDIATE RELEASE

Chemstream Elevates Oilfield Operations with Innovative Real-Time Operating Center

Pioneering Pumping and Monitoring Technology Takes Efficiency and Precision to the Next Level

November 4, 2024 - Homer City, PA – Chemstream, a leader in oilfield chemical solutions, is thrilled to announce the launch of its cutting-edge Real-Time Operating Center (RTOC). This advanced platform enhances Chemstream’s industry-leading chemical pumping equipment, setting a new benchmark for efficiency, precision, and performance in the field.

As the energy industry continues to demand higher standards for operational efficiency, Chemstream’s RTOC introduces a breakthrough in real-time monitoring and automation. The integrated system offers continuous, remote oversight and immediate data-driven adjustments, ensuring seamless operations for frac projects of any scale.

What sets Chemstream apart?

- **Automated Chemical Pumping Technology:** Our innovative system leverages real-time data to optimize chemical pumping, driving immediate adjustments that maximize operational efficiency and minimize downtime.
- **Advanced Metering Technology:** Chemstream’s equipment boasts unmatched accuracy in chemical loadings, ensuring optimal performance throughout the frac process.
- **Vertically Integrated Operations:** Chemstream offers a complete solution with our own trucks, drivers, and tankers, delivering chemicals directly to your site for a seamless, end-to-end service experience.

“Innovation is at the core of everything we do at Chemstream. We take immense pride in pushing the boundaries of technology within the oil and gas industry. The launch of our Real-Time Operating Center (RTOC) and Autonomous Pump Trailer is a testament to our team's dedication and innovation, allowing us to deliver the highest quality products and services to our customers. Our differentiated business model enables us to provide these advanced solutions with a significant competitive advantage, ensuring that our clients receive unmatched efficiency and precision on every project.” -*Jesse Krieg, Chemstream’s Vice President of Oil and Gas*
