Warehouse Operations Associate
Chemstream, Inc. | Full-Time | On-Site

About Chemstream

Chemstream, Inc. is a leading chemical manufacturer and supplier serving a variety of industries, including oil and gas, water treatment, power generation, and mining. As our company continues to grow and expand, we are looking for motivated, dependable, and safety-conscious individuals to join our team.

At Chemstream, we value hard work, teamwork, and a commitment to operational excellence. We offer a competitive benefits package, including **100% employer-paid medical, dental, and vision insurance,** along with **a 401(k) retirement plan with a 5% employer match.**

Position Overview

Chemstream is seeking a reliable and motivated **Warehouse Operations Associate** to support daily warehouse, logistics, and facility operations.

This hands-on position is responsible for receiving and processing inbound materials, loading and unloading trucks, preparing outbound shipments, maintaining inventory, and assisting with general facility and equipment maintenance.

The ideal candidate will be mechanically inclined, detail-oriented, and comfortable working in a fast-paced industrial environment. This position requires a strong commitment to workplace safety, teamwork, and maintaining an organized and efficient facility.

Key Responsibilities

Warehouse & Logistics Operations

- Receive, inspect, unload, and process inbound materials and deliveries.
- Load, unload, and properly secure trucks for transportation.
- Operate forklifts, pallet jacks, and other material-handling equipment safely and efficiently.
- Prepare, stage, and organize materials for outbound shipments.
- Assist with bulk chemical transfers and prepare storage tanks for incoming deliveries.
- Verify incoming and outgoing shipments for accuracy and proper documentation.
- Maintain clean, organized, and accessible warehouse and storage areas.

Inventory Management

- Assist with tracking and maintaining accurate inventory levels.
- Perform routine inventory counts and identify discrepancies.
- Monitor inventory levels and communicate replenishment needs to supervisors.
- Ensure materials are properly labeled, stored, and organized.
- Support inventory control procedures to minimize product loss and improve operational efficiency.

Facility & Equipment Maintenance

- Perform general facility maintenance, housekeeping, and upkeep.
- Assist with basic mechanical maintenance including minor equipment repairs.
- Inspect warehouse equipment and report maintenance or safety concerns.
- Assist with routine inspections and preventive maintenance of facility equipment.
- Support additional operational projects and facility improvements as needed.

Safety & Compliance

- Follow all company safety policies, operating procedures, and applicable regulations.
- Properly use required personal protective equipment (PPE).
- Maintain a clean and hazard-free work environment.
- Safely handle and transfer chemical products in accordance with established procedures and training.
- Identify and report unsafe conditions, equipment concerns, and potential hazards.
- Participate in required safety meetings and training programs.

Qualifications & Requirements

- High school diploma or GED equivalent.
- Previous warehouse, manufacturing, industrial, or logistics experience preferred.
- Forklift experience preferred; willingness to complete certification or training required.
- Basic mechanical knowledge and troubleshooting abilities.
- Strong organizational skills and attention to detail.
- Ability to work independently and as part of a team.
- Effective communication and interpersonal skills.
- Ability to prioritize responsibilities and manage multiple tasks in a fast-paced environment.
- Dependable attendance, strong work ethic, and willingness to learn.
